SECTION II - PROVISIONS

For the purpose of this endorsement, roof surfacing refers to the shingles, tiles, cladding, metal or synthetic sheeting or similar materials covering the roof and includes all materials used in securing the roof surface and all materials applied to or under the roof surface for moisture protection,

as well as roof flashing and roof vents.

We will not pay for cosmetic damage to roof surfacing caused by wind and/or hail. For the purpose of this endorsement, cosmetic damage means that the wind and/or hail caused marring, pitting or other superficial damage that altered the appearance of the roof surfacing, but such damage does not prevent the roof from continuing to function as a barrier to entrance of the elements to the same extent as it did before the cosmetic damage occurred.

All other policy provisions apply.
